

DSR CERTIFICATION, LLC

ABOUT US

Organizational Structure

DSR Certification, LLC is a US-based, virtually operated management system certification body.

All certification activities, including auditor competence evaluation, audit planning, certification decisions, and impartiality management, remain under the sole responsibility and control of DSR Certification, LLC.

Administrative, commercial, IT, and back-office support services are provided by DSR GmbH, Germany, which does not perform certification activities or make certification decisions.

Certification Services

DSR Certification, LLC is currently undergoing initial accreditation by the International Accreditation Service (IAS) for the following management system certification standards:

ISO 9001 – Quality Management Systems

ISO 14001 – Environmental Management Systems

ISO/IEC 27001 – Information Security Management Systems

DSR Certification, LLC has not yet obtained accreditation and has not issued any certificates to date.

Certification Information and Geographic Coverage

Information regarding the geographic regions in which DSR Certification, LLC conducts or intends to conduct certification activities is available upon request.

Information regarding the status of certifications, including the name and geographic location of certified organizations, the applicable management system standard and the certification scope, is provided upon request, subject to applicable confidentiality requirements.
